Summary

Aspiring Full-Stack Developer with a growing interest in Data Analytics. Skilled in HTML, CSS, JavaScript, Node.js, and Bootstrap, with hands-on experience in creating responsive web applications. Currently expanding knowledge in Python and SQL to enhance data-driven decision making. Strong collaborator with a passion for technology and continuous learning.

Skills

Programming: HTML, CSS, JS, PYTHON, Nodejs, REACT, SQL
Databases: MySQL, MongoDB

Web Tech: HTML, CSS, JavaScript, React.js, Node.js
Tools: Git, GitHub, VS Code

Projects

Morse Code Converter Web App | HTML, CSS, JAVASCRIPT, GitHub

{ Built a responsive web application to translate text to Morse code and Morse code to text
Implemented the conversion logic using JavaScript dictionaries and string manipulation.
Designed an intuitive UI using HTML and CSS for seamless user interaction
Added audio/visual cues for Morse code output.

Krishika Mitra | AI-Based Crop Pest Detection and Farmer Assistance System

Developed an intelligent agriculture web application to help farmers identify crop pests and improve crop health.

AI-Based Oil Spill Detection Using Satellite Images

{ Developed a system to detect oil spills in ocean regions using satellite images
Applied image processing / deep learning techniques to identify affected water areas.
Trained the model to differentiate between normal water surfaces and oil-contaminated regions.
